- 2. Answer all questions and attach additional sheets where necessary. If the information cannot be provided, briefly explain why.
- 3. Explain unusual entries and discrepancies on pages containing space for remarks or reference the entity and attach supplemental pages.
- 4. Where the space provided is insufficient, insert and number additional pages. Photocopies or computergenerated pages may be used. For example, if you need to add pages to report your wire miles on page 12, number the pages 12A, 12B, 12C, etc.
- 5. Please submit any additional information that may affect the valuation of the property.
- 6. If information matching what is being requested has already been created, you may substitute copies of that information.
- 7. If an option for removing intangible personal property is not selected (page 3), option A will become the default method. For example: investments in custom software are exempted as intangible personal property. Custom software is defined as:
 - ... software designed, and created by a vendor at the specific request of a client. The term includes services separately charged to modify existing canned software, even though the canned program remains taxable. Custom software does not include loading parameters to initialize program settings and arranging preprogrammed modules to form a complete program.
- 8. Additional reports to be included: the annual report to partners and stockholders, operating and financial year-end company report, annual report to the Federal Communications Commission or the Public Utilities Commission of Idaho, or the annual report to the Securities and Exchange Commission.
- 9. If you elect the qualified property exemption in lieu of investment tax credit, you must complete page 4.

If you have any questions about completing this form, please call our office at (208) 334-7722.
